JAN MANUEL M. BAGARES

Junior Frontend Developer | React & TypeScript

Las Piñas City, Philippines | 0995 712 8062

jmbagares52@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science graduate building responsive web interfaces with React, JavaScript, and TypeScript. Experience includes form validation, REST API integration, two company websites deployed during an IT internship, and a React Native thesis application using Supabase and PostgreSQL. Seeking junior frontend or web development opportunities.

PROJECTS

PetSOS Landing Page | Solo Frontend Project

React, TypeScript, Tailwind CSS, Framer Motion, GSAP | Live website | Source code

- Built a responsive product website explaining the PetSOS application through reusable React sections and clear calls to action.
- Implemented desktop and mobile layouts, animated entrances, hover feedback, and interactive background effects.

CvSU Enrollment System | Frontend Developer, Team Project

React, JavaScript, Bootstrap, CSS, Axios | Case study | Source code

- Developed responsive enrollment screens, client-side form validation, and visible input feedback.
- Integrated backend requests with Axios and coordinated request and response behavior with the team's backend developers.

PetSOS | Mobile Developer, Four-Person Thesis Team (2025 - 2026)

React Native, Expo, TypeScript, Supabase, PostgreSQL | Case study | Source code

- Developed mobile interfaces and application logic for incident reporting, volunteer coordination, geolocation, and mapping; integrated authentication and real-time data updates.
- The team application received 4.64/5 in an ISO/IEC 25010-based software quality evaluation involving 50 respondents.

EXPERIENCE

IT Intern | Magnaval Services

July 2025 - August 2025 | Las Piñas City, Philippines | Magnaval Services | Warduz Petshop

- Built and deployed two responsive company websites using WordPress, cPanel, and custom domain configuration.
- Organized service and product content, supported client requests, and prepared technical documentation.
- Provided hardware and software troubleshooting and assisted with networking, CCTV, and biometric access installations.

TECHNICAL SKILLS

Frontend: React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, responsive design
Integration & Data: REST API integration, Axios, Supabase, PostgreSQL, SQL, authentication
Tools: Git, GitHub, Vite, WordPress, cPanel, Framer Motion
Mobile: React Native, Expo, push notifications, geolocation

EDUCATION

Bachelor of Science in Computer Science | 2022 - 2026

Cavite State University - Bacoor Campus | Graduated September 17, 2026
