PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in web and mobile development using React, React Native, Expo, Supabase, and PostgreSQL. Contributed to an AI-assisted animal rescue application and built and deployed two company websites during an IT internship. Additional experience includes API integration, hardware troubleshooting, and on-site technical support.

PROJECTS

PetSOS | AI-Assisted Animal Rescue App 2025 - 2026

React Native, Expo, TypeScript, Supabase, Roboflow, OpenRouter, Geoapify, TomTom

- Contributed to the mobile application as part of a four-developer team, working on the front end, backend services, and database schema.
- Built interfaces and application logic for incident reporting, push notifications, and volunteer coordination; implemented geolocation and mapping features using Geoapify and TomTom.
- Integrated AI services and third-party APIs for response classification, and used Supabase for authentication, data storage, and real-time updates.
- The application received an overall score of 4.64/5.00 in an ISO/IEC 25010-based software quality evaluation involving 50 respondents.

SignSense | ASL Recognition Web App Solo Project

React, MediaPipe, TensorFlow / Keras, GRU, Canvas API

- Built a browser-based application for real-time ASL fingerspelling, whole-word sign recognition, and gesture-controlled drawing.
- Developed and trained recognition models, integrated MediaPipe hand and pose tracking, and implemented the React interface and Canvas drawing features.
- Ran inference locally in the browser, keeping webcam footage on the user’s device.

EXPERIENCE

IT Intern | Magnaval Services Jul 2025 - Aug 2025

Las Piñas City, Philippines

- Built and deployed two company websites, Magnaval Services and Warduz Petshop, using WordPress, cPanel, and custom domains.
- Installed and configured CCTV systems, biometric access devices, and network equipment at client sites.
- Troubleshot desktops, laptops, and printers; formatted drives and installed operating systems on systems using Legacy BIOS and UEFI.
- Assembled and refurbished desktop and all-in-one PCs; configured a JBOD NAS for local file storage and sharing.
- Coordinated with clients, maintained service documentation, and created marketing materials.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL | **Web:** HTML5, CSS3

Web Development: React, Tailwind CSS, Bootstrap, Framer Motion, Vite, responsive design

Mobile Development: React Native, Expo, iOS and Android builds, push notifications, geolocation

Backend & Data: Supabase, PostgreSQL, authentication, REST API design and integration

Tools & Platforms: Axios, Git, GitHub, WordPress, cPanel, Photoshop, Canva

IT Support: PC assembly, hardware and OS troubleshooting, networking fundamentals, NAS setup

EDUCATION

Bachelor of Science in Computer Science 2022 - 2026

Cavite State University - Bacoor Campus

Senior High School | ICT Strand 2018 - 2020

University of Perpetual Help System DALTA - Las Piñas Campus
