JAN MANUEL M. BAGARES

Las Pinas City, Metro Manila, Philippines | 0995 712 8062 | jmbagares52@gmail.com | jmbagares.com

PROFESSIONAL SUMMARY

Front-end developer and graduating Bachelor of Science in Computer Science student with hands-on experience building responsive web and mobile applications using React, React Native, JavaScript, and TypeScript. Delivered a full-scale mobile rescue platform and a university enrollment system front end, and completed a 240-hour IT internship covering web deployment, hardware repair, and network installation.

PROJECTS

PetSOS, AI-Assisted Animal Rescue Mobile Application 2025 - 2026

React Native, Expo, TypeScript, Supabase, Roboflow, OpenRouter, Geoapify

- Developed a cross-functional mobile application for community-based animal rescue as one of four developers on a capstone thesis team.
- Implemented real-time geolocation features for reporting and tracking rescue incidents using Geoapify and TomTom mapping services.
- Designed and built user interfaces for incident reporting, push notifications, and volunteer coordination workflows.
- Integrated AI and backend APIs for automated response classification and data management with Supabase.
- Achieved a 4.64 out of 5.00 overall rating in an ISO 25010 software quality evaluation with 50 respondents.

CvSU Enrollment System 2024

React, JavaScript, CSS, Bootstrap, Axios

- Designed and developed the responsive front end of a university enrollment system using React, CSS, and Bootstrap.
- Integrated Axios for API requests and implemented real-time form validation to improve submission accuracy and user experience.
- Collaborated with backend developers to connect the interface to server-side services following modern UI design practices.

PROFESSIONAL EXPERIENCE

IT Intern, On-the-Job Training July 2025 - August 2025

Magnaval Services, Las Pinas City, Philippines | 240 hours

- Built and deployed two production company websites, Magnaval Services and Warduz Petshop, using WordPress, cPanel, and custom domain configuration.
- Configured CCTV systems, biometric access devices, and network setups for client sites, including full on-site installation.
- Diagnosed and repaired desktops, laptops, and printers; installed and reformatted operating systems in both Legacy and UEFI modes.
- Assembled and refurbished PCs and all-in-one units and configured a JBOD NAS for local file sharing and storage.
- Coordinated with clients, maintained service documentation, and produced marketing materials including flyers and calling cards.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks and Libraries: React, React Native, Expo, Tailwind CSS, Bootstrap, Framer Motion, Vite

Backend and Data: Supabase, PostgreSQL, REST APIs, Axios

Tools and Platforms: Git, GitHub, WordPress, cPanel, Photoshop, Canva

Systems and Hardware: PC assembly and troubleshooting, OS installation (Legacy and UEFI), networking fundamentals, CCTV and biometric access systems, NAS configuration

EDUCATION

Bachelor of Science in Computer Science 2022 - 2026

Cavite State University, Bacoor Campus, Cavite, Philippines

Senior High School, Information and Communications Technology Strand 2018 - 2020

University of Perpetual Help System DALTA, Las Pinas Campus
